Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

Additional guidance on reporting race and ethnicity data.

| Total number of students enrolled in 2014-15: | 169 |
|---|-----|
| Unduplicated number of males enrolled in 2014-15: | 52 |

Section I.d Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2014-15.

| Average number of clock hours of supervised clinical experience required prior to student teaching | 268 |
|---|-----|
| Average number of clock hours required for student teaching | 450 |
| Average number of clock hours required for mentoring/induction support | 0 |
| Number of full-time equivalent faculty supervising clinical experience during this academic year | 10 |
| Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff) | 172 |
| Number of students in supervised clinical experience during this academic year | 315 |

Please provide any additional information about or descriptions of the supervised clinical experiences:

Section I.e Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2014-15. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. $(\S205(b)(1)(H))$

Section I.f Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years:

2014-15: 155

2013-14: 163

2012-13: 167

Section II Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. (\$205(a)(1)(A)(ii), \$206(a))

Information about teacher shortage areas can be found at http://www2.ed.gov/about/offices/list/ope/pol/tsa.html.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Section II Assurances

Please certify that your institution is in compliance with the following assurances. (\$205(a)(1)(A)(iii), \$206(b)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. Yes

Describe your institution's most successful strategies in meeting the assurances listed above:

Our area of weakness is this area concerns working with limited English proficient students. While strategies are discussed in several elementary/early childhood courses and in all methods courses, unless our students happen to have a student teaching or practicum experience with a limited English proficient student, they do not have a chance to practice these strategies.

Because we are in a rural area with many low-income families, training in providing instruction to children from low-income families pervades the curriculum. We try to sponsor a poverty simulation every three years, so that every student has a chance to participate.

In addition, we encourage students in all areas of certification to select special education classes as electives

Section III Assessment Pass Rates

No assessment pass rates have been reported.

**Please note that pass rates will be provided to Westat by the state or the testing company or companies (or entities). You do not need to upload or submit any files for this section.

You will be notified via email once pass rates have been uploaded. Please be sure to review the pass rates for accuracy once they are uploaded. We stat expects to receive and upload pass rate files for most programs by mid-April.**

Section III Summary Pass Rates

No summary pass rates have been reported.

**Please note that pass rates will be provided to Westat by the state or the testing company or companies (or entities). You do not need to upload or submit any files for this section.

You will be notified via email once pass rates have been uploaded. Please be sure to review the pass rates for accuracy once they are uploaded. We stat expects to receive and upload pass rate files for most programs by mid-April.**

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited? Yes

If yes, please specify the organization(s) that approved or accredited your program: State

Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)? No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction Ves
- use technology effectively to collect data to improve teaching and learning Yes
- use technology effectively to manage data to improve teaching and learning Yes
- use technology effectively to analyze data to improve teaching and learning Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Aside from the pervasive use of various technologies in all education courses (and many other courses on campus), education students take a specific course in Instructional Technology, ED122. All methods courses also specifically address the use of technology for specific subject areas. In addition, physical education majors learn to use appropriate systems in their testing and measurement class.

Principles of universal design for learning are specifically addressed in introduction to teaching and in the reading classes for all levels.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
- participate as a member of individualized education program teams v_{es}
- teach students who are limited English proficient effectively No

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All students take PY342 Psychology of the Exceptional Child. In this class, they study IEPs and their uses in both regular and special education classrooms. In the practicum that accompanies this course, they may have the opportunity to discuss IEPs with their supervising teacher.

Special education students, of course, have many opportunities to discuss IEPs and to study the writing and implementation of IEPs.

Physical education students also take a class in Adapted Physical Education, which addresses IEP issues. In addition, students often have the opportunity to participate in IEP meetings during their student teaching experience.

All education students are required to take ED101 Introduction to Education which includes information about and strategies for working with ELLs. Depending on the grade level the students are being certified in, they will also have a reading/writing course at the junior/senior level that reiterates the importance of differentiation for ELL students and reminds them of various strategies.

Does your program prepare special education teachers to:

• teach students with disabilities effectively Yes

- participate as a member of individualized education program teams
- teach students who are limited English proficient effectively No

Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Teachers of methods classes have included more work in the area of instruction students with limited English proficiency.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.
