

Applied Science in Management (BASM) - Min. 120 Hours

This degree program is designed for and available only to students who transfer to Central Methodist University with an Associate of Science (AS) or Associate of Applied Science (AAS) degree. (1) Students with an AS or AAS in Management or a closely related cognate field should consult the Bachelor of Science programs in Business which will serve as their degree completion program. (2) Students who have taken AAS technical courses in some AAS field but have not completed the AAS degree will be evaluated for this and other degree completion programs on an individual basis. This degree program requires at least 36 hours of upper-division coursework.
